kickoff

I am a [fresher / developer with X years] targeting [role]. My interview is on [date]. Here is my resume summary and the job description: [paste]. Explain feedback in simple Tenglish, but conduct practice in English. Ask me one question at a time.

Company & role prep

prep [company] ani start chesi target role, JD ivvandi. Predicted questions ni preparation kosam use cheyyandi; exact interview questions ani assume cheyyakandi.

Suggested follow-up

Pick five questions relevant to this JD. Start with my project. After each answer, identify one vague claim, ask one follow-up, and help me make the answer clearer without inventing experience.

Mock interview

mock behavioral [company] tho rehearsal cheyyandi. Answer chadavadam kannu aloud ga cheppandi; taruvatha mee actual answer type cheyyandi.

Suggested feedback request

Keep my real facts. Show what was unclear, give a tighter 60-second version, then ask me to answer again in my own words.

One small routine. Every interview.

Practice score kannu, nee answer clear ga undadam mukhyam.

20-minute practice plan

5 min: JD chadivi role ki kavalsina three skills note cheyyi.

10 min: two questions ki aloud ga answer cheyyi, feedback teesuko.

5 min: weakest answer malli cheppi improve cheyyi.

Interview ayyaka

debrief ani type chesi gurthunna questions, mee answers, difficult follow-ups ivvandi. Next round kosam em practice cheyyaalo adugandi.

Suggested debrief prompt

Here are the questions I remember and how I answered: [notes]. Separate facts from guesses. Identify my top two gaps and give me a short practice plan for the next round.

Quick fixes

Normal chatbot la respond avuthondaa? Correct folder open chesaara, renamed .md file undaa check cheyyandi.

Commands confusion aa? **help** ani adugandi.

Fake achievements add chethundaa? Mee actual evidence matrame use cheyyamani cheppandi.
